*Hi Gov,  
Here is some information I

Governor Gretchen Whitmer  
P.O. Box 30013  
Lansing, MI 48909

Dear Governor Whitmer:

I see you are trying to enact a state-wide law on mask wearing. The CDC has run a small study that surveyed symptomatic COVID-19 patients. 70.6% of respondents always wore masks and 14.4% said they often wore masks. According to this survey, 85% of infected COVID-19 patients surveyed wore masks.

I am sending you some information in hopes that you will do a little research to help you curb some of the COVID-19 hysteria that is being promoted. "The COVID-19 Genocide of 2020 is a well-researched article that will give you some insight into many of the conversations I have been having with various individuals about this COVID-19 pandemic. The "Until now...." article states that viruses are continually adapting (mutating) and the only real defense to the viruses is to increase the body's ability (immunity) to control the virus and eliminate symptoms. The expected vaccines will be ineffectual. Because they will be ineffectual, it follows that the unvaccinated and the immune citizens will be blamed for any new outbreaks.

Please look at the "Flu Vaccination Coverage...2019-2020" spreadsheet. You will notice that those 65 years or older had the greatest percentage of flu vaccinations. Now, look at the COVID-19 deaths in the "Provisional COVID-19 Death Counts..." updated to November 5, 2020. You will notice that those 65 years or older have 79% of the COVID-19 deaths. From this information alone, you wouldn't want anyone over 65 to be vaccinated for the flu. It appears to make them more susceptible to COVID-19. Look at the column for Pneumonia Deaths. They are as bad as COVID-19, but no pandemic. Also note that you cannot sum across the age categories.

I would recommend that you take some time and talk to the people on the streets or in the country. We are the ones that have to put up with your desires and wishes.

Sincerely,

Aldon Maleckas

The COVID-19 Genocide of 2020

Each time a person stands up for an idea, or acts to improve the lot of others, or strikes out against injustice, s/he sends forth a tiny ripple of hope, and crossing each other from a million different centers of energy and daring, those ripples build a current that can sweep down the mightiest walls of oppression and resistance. -- Robert F. Kennedy

"COVID-19" was long pre-planned in documents and simulation exercises emanating from the eugenicist Bill Gates and the Rockefeller Foundation. A platform with 200 detailed levels is provided by the World Economic Forum led by Klaus Schwab, a technocrat and promoter of transhumanism, in order to provide detailed instructions on how the "COVID-19" pandemic is to be used to implement a global monetary reset and digital currency, technocracy and totalitarian government worldwide under the guise of socialism and environmentalism, with China as the model, and enslave humanity through a sinister vaccine conspiracy.

Earlier attempts were made to engineer pandemics but none succeeded. This time, the World Health Organization changed its pandemic criteria in advance so that it could declare a pandemic on spurious grounds. 2 Tedros Adhanom Ghebreyesus, a terrorist and accused genocidist was appointed head of the World Health Organization in order to orchestrate the pandemic and facilitate the totalitarian takeover.<sup>3,4</sup>

Wireless technology suppresses the immune system. 5G is implicated in COVID-19 through correlations between the locations of the 5G rollout and morbidity/mortality,<sup>5, 6</sup> as well as the prior administration of flu vaccinations in Wuhan and Milan.<sup>8</sup> The symptoms of "COVID" are virtually identical to the symptoms of exposure to electromagnetic radiation (EMR).<sup>9</sup> Extensive military research over many decades was kept secret and regulatory agencies were co-opted in order to prevent the public learning about the extreme dangers of electromagnetic radiation.<sup>10</sup> Doctors receive no training on the risks to health of exposure to EMR and therefore misdiagnose EMR symptoms. Hospitals are extensively equipped with 5G, putting patients' lives at risk.

5G serves many purposes. It is a depopulation and military weapon and facilitates the introduction of technocracy and 2 totalitarian control by enabling surveillance, facial recognition, 24/7 monitoring of individuals, mind and body control, and - in combination with vaccines and chemtrails containing nanoparticles - the torture or murder of targeted individuals. 11 EMR can be used to simulate pathogens and overwhelm the immune system 12 and cell phones may be being used to simulate "COVID-19 contagion" among co-workers or family members. 5G has been widely installed terrestrially and in space to target and control populations.

The illegal coronavirus measures were used by governments to accelerate the 5G rollout and install 60 GHz public access points in schools in order to target children. 13

Illegal legislation has been put in place in numerous countries: 14

- To remove civil liberties
- To destroy economies
- To close down small and medium-sized businesses 15
- To separate, isolate and terrorize family members
- To impoverish people, including by destroying jobs
- To remove children from their families
- To intern dissenters in concentration camps
- To grant immunity to government operatives to commit murder, rape and torture (UK) 16
- To use the police, army and mercenaries to control populations
- To force-vaccinate populations with a non-medical vaccine containing population control mechanisms without their informed consent.<sup>17</sup>

There is and was no pandemic since "the curve" was flattening before the lockdown measures were put in place. Mortality is at a lower level than in previous years. 18 The PCR test, which was never designed as a diagnostic test and gives up to 94% false positive results, is used by the oligarch- and government controlled mainstream and social media platforms to terrorize populations for the purpose of obtaining obedience. The illusion of a pandemic is stoked by doctors being forced to attribute virtually every death to "COVID".

Medical staff and doctors are intimidated to prevent them speaking the truth about the fake pandemic. In the UK, the death certificate is being changed to prevent relatives being able to question the cause of death.<sup>19</sup>

Tens of thousands of doctors have now come out to confirm that "COVID-19" is a hoax. 20, 21 There were no "COVID" deaths in Ireland until 20 April and since then, the lockdowns have been based on 98 deaths out of 5 million people, while 30 thousand die annually from other diseases. Only people with a "hot" infection, with symptoms such as headaches or a sore throat, are contagious - 86% of "COVID" "cases" are asymptomatic carriers and therefore harmless.<sup>22</sup>

A Stanford University antibody study concluded the death rate to be between 0.1 to 0.2%, right in line with the seasonal flu. Initial projected death rates from the World Health Organization "were 20 to 30 times higher."<sup>23</sup> In June, the US Centers for Disease Control confirmed the overall infection fatality rate (IFR) to be just 0.26%, way lower than the 3.4% estimate of WHO, which helped drive the panic and the lockdowns.<sup>24</sup> But even that is an overestimate: the infection fatality rate for non-nursing home residents is likely only 0.1% or 1 in 1,000.

The UK and German governments stated in documents that they were deliberately ramping up the fear level, including traumatizing children by making them believe that they would torture and kill their relatives if they failed to wash their hands and obey the corona measures. Children were made to believe that they could show their love for their grandparents by not coming near them. Social distancing is a torture technique devised to traumatize 25 and its purpose is to condition people to distance themselves from others so that they can be seen and targeted by the 5G weapon.

Government and WHO policies are deliberately aimed at killing people. In many countries, doctors were ordered not to admit the elderly to intensive care units and to withdraw all health care, and national health systems stopped providing health care other than that for "COVID", abandoning the sick to die. In France, the government issued a decree ordering doctors to administer to the elderly a drug restricted since 2012 as it was contra-indicated for respiratory problems.<sup>26</sup> In the US, hospitals were heavily bribed to diagnose "COVID" and put patients on ventilators that killed them. WHO and governments suppressed successful treatments, one in particular in use for 70 years, and harassed doctors successfully saving patients. Autopsies that would reveal true cause of death were mostly prevented. Forensic Pathologist Professor Klaus Püschel declared having not seen a single case of "COVID-19" in autopsy that did not include other serious pre-existing diseases.<sup>27</sup>

Governments and WHO promoted and enforced mask-wearing by the public in full knowledge that they provide no protection from any virus, 28 but cause serious neurological and respiratory damage, putting people's lives and health at risk.<sup>29</sup>

In the UK, the death rate rose only after the general lockdown was implemented. 30 Top economists are warning that the UK government is "killing more people than it could possibly save" through lockdowns.<sup>31</sup> The UK Daily Mail carried out an audit of 130 studies from journals, academics and charities, documenting the social and health devastation and deaths caused by lockdowns. 32 In one county in the US, suicides among young people rose 100%/0.33 A million New Yorkers can no longer afford food.<sup>34</sup> Britain's WHO envoy has said that world poverty will double by 2021 as a result of lockdowns.<sup>35</sup>

## The "COVID" vaccine

Bill Gates wants to reduce the world population.<sup>36</sup> He introduced his vaccine containing the electronic Nano chip "marker" intended to "mark" and control 7 billion humans at the ID2020 Conference in 2019. ID2020 is intended to provide a unique digital identity for all humans by 2030 that closely interlocks this digital identity with access to commerce and secure access systems.<sup>37</sup> This is the electronic enslavement of humanity.

The subcutaneous chip will be able to:

- Influence the behavior of the chip-bearer (manipulate and control crowds)
- Eliminate categories of people (reduce the world population)
- Ensure vaccine compliance<sup>38</sup>
- Permanently locate the bearer (exit civil liberties)
- Integrate 7 billion people into the cloud and operate with an all-digital system that is the equivalent of a credit on a company store.<sup>39</sup>

Nano chips and liquid crystals in vaccines can influence human behavior, without concern for political ethics.<sup>40</sup> And the upcoming vaccine is intended to genetically modify humanity for all future generations,<sup>41</sup> in effect deleting humanity altogether as humans become trans humans or robots.<sup>42</sup>

South Korea has just had 9 flu shot deaths and 432 adverse reactions, while 5 million doses of vaccine were not refrigerated.<sup>43</sup> One volunteer in AstraZeneca's new "COVID" vaccine has just died<sup>44</sup> and two of the trials have been halted because participants became sick.<sup>45</sup> These "COVID" vaccines are not following normal trial procedures and are being rushed out in case the pandemic hoax peters out too soon to convince people to take the vaccine. Governments are giving the pharmaceutical companies full immunity from injury lawsuits.

Increasing numbers of people are saying that they will refuse the COVID-19 vaccine, with about half the US and UK populations saying so.<sup>46</sup> And yet certain governments are planning to force vaccinations on populations using the army<sup>47</sup> while others are planning to ban vaccine refuseniks from work, school or travel.<sup>48</sup>

### **Humanity is in extreme and imminent danger**

Some good people are launching legal cases to stop this war on humanity, among them the Italian Catholic Association,<sup>49</sup> Simon Dolan and the Bernician in the UK. Children's Health Defense and the Environmental Health Trust are bringing cases against the Federal Communications Commission for its refusal to review its outdated thermal exposure guidelines on electromagnetic radiation.<sup>50</sup> Common law movements are under way in several countries.

But all of this is too slow. The perpetrators of the COVID scam are still imposing lockdowns and destroying lives, businesses and families. The entity behind all of this, the World Economic Forum, told us in 2017 about the world they want to see by 2030:<sup>51</sup>

- You'll own nothing—you'll be renting everything• The U.S. won't be the world's leading superpower—because everything will be under totalitarian, technocratic control and there will be no nation states
- You'll eat much less meat—you won't be allowed to
- A billion people will be displaced by [fake] climate change— countries will have to welcome more refugees
- Polluters will have to pay to emit carbon dioxide—"polluters" will include farmers trying to grow food crops<sup>52</sup>
- Western values will have been tested to the breaking point— your culture will be eliminated and replaced with Maoist technocratic slogans.<sup>53</sup>

They are engineering food shortages in numerous different ways.<sup>54</sup> They are building concentration camps for dissenters.<sup>55</sup> They want to impose a forced vaccine full of nanochips for immunity passports and cryptocurrency, and nanoparticles so they can track, surveil and control us, including our minds. This vaccine is intended to genetically modify humanity for all future generations. In the US, Soros and 269 major corporations are funding Black Lives Matter and destroying America with the complicity of corrupt Democrat politicians.<sup>56</sup> They want civil war everywhere. In Austria, France, Switzerland, the US and other countries, many people are armed and trained to fight. We cannot give them what they want. We must stop this agenda in its tracks, take power ourselves and arrest the perpetrators.

### **Conclusion**

Governments are corporations obeying orders from the World Economic Forum and are no longer serving their peoples. They are acting in contravention of international and national laws and no longer have any legitimacy. We are witnessing the collapse of the rule of law. Governments, elected representatives and international institutions, including the UN, and private clubs such as the International Commission on NonIonising Radiation Protection, and the World Economic Forum are complicit in this "greatest crime against humanity ever committed".<sup>57</sup> Only the sovereign peoples of this world have legitimacy under these circumstances.

The perpetrators, including Klaus Schwab, Prince Charles, Bill and Melinda Gates, George Soros, UN Secretary-General Antonio Guterres, and WHO's Tedros Adhanom Ghebreyesus and Michael Ryan, the New Zealand Prime Minister Jacinda Ardern, UK Prime Minister Boris Johnson and UK Health Minister Matt Hancock, French President Emmanuel Macron and Prime Minister Edouard Philippe, German Chancellor Angela Merkel, Austrian Chancellor Sebastian Kurz, Elon Musk, Mark Zuckerberg, mainstream journalists and others must be seized and brought to justice in new Nuremberg trials.

Politicians, journalists peddling fake news for the mainstream media, and others may be granted immunity if they change sides now, join the people before it is too late, and become whistleblowers.

We call upon the human population to shun these genocidal monsters in hotels, in restaurants, in taxis, wherever you come across them. Turn your back on them and show them the contempt they deserve for their psychopathic behavior and genocidal intent.

We call upon the armies and the national police <sup>58,59</sup> to stand with the people against the conspirators, who aim to expropriate you, too, and take your children, too, and genocide as many of us as they find convenient. Police and armies will be replaced by machines in the New World Order. You, too, belong with the people and we ask you to stand with us in defending our humanity, our health, our families, our children, indigenous peoples and all of the natural life on Earth that sustains and protects us.

If anyone moves into a common area or is getting some fresh air, which is all monitored no one can do that on their own. They can only leave or be in a space to get a little bit of fresh air if they are supervised, because of course it's a quarantine facility.

Until now, scientists were in the dark about what distinguishes the "swine flu" from the ordinary type in pigs or seasonal outbreaks in humans. By Jl SIEGEL-ITZKOVICH AUGUST 17, 2011 23:19

For the swine flu patient, the H1N1 influenza virus usually causes limited infection, but it occasionally turns virulent and kills throughout the world.

Until now, scientists were in the dark about what distinguishes the "swine flu" from the ordinary type in pigs or seasonal outbreaks in humans — as in 1918 and 2009 — giving it the power to travel extensively and infect large populations. Prof. Nir Ben-Tal of Tel Aviv University's biochemistry and molecular biology department and his graduate student, Daphna Meroz, in collaboration with Dr. Tomer Hertz of Seattle's Fred Hutchinson Cancer Research Center, have developed a unique computational method to address this question.

They just published their research, which constitutes a valuable tool for identifying viral mutation strategies, tracking various virus strains and developing vaccinations and protective anti-virals. It appeared this week in the prestigious American Journal Proceedings of the National Academy of Science. They suggest their work may also lead to more precisely designed vaccines to combat these viral mutations.

Their method reveals that mutations in the virus's amino acids in specific positions may explain how the new strain successfully spread throughout the population in 2009, in which more than 18,000 died around the world. These alterations allowed the strain to evade both existing vaccines and the immune system's defenses.

"Viruses and our immune systems are constantly at war," said Ben-Tal. A virus constantly mutates to escape notice, and our immune system strives to play catch-up and recognize the virus to mobilize the body's immune system.

To determine the spread of the 2009 flu, Ben-Tal and his colleagues analyzed the hemagglutinin protein, which controls the virus's ability to fuse to a host cell in the body and transfer the genome, which contains the information needed to make more viruses. Eventually, he says, our immune system is able to recognize a virus's hemagglutinin, which triggers its reaction to fight the virus.

Using a statistical algorithm, the researchers compared amino acid positions in the 2009 strain of H1N1 against the common flu and the strain of H1N1 found in the type affecting pigs. They discovered major sequence changes had occurred, altering antigenic sites and severely compromising the immune system's ability to recognize and react to the virus.

"Our new computation method showed the main differences between the pandemic strain and the common seasonal H1N1 strain are in about 10 amino acid positions," Ben-Tal and Meroz reported. "That's all it takes."

Experiments conducted at St. Jude Children's Research Hospital in Memphis, Tennessee confirmed some of the theoretical predictions.

The scientists believe that like the 1918 Spanish flu, which is estimated to have killed at least 50 million people, the 2009 pandemic flu will likely go into "hibernation."

Now that this particular strain has been recognized by the immune system, its power to infect has been compromised.

"But we were lucky: despite the relatively low death toll of the pandemic in 2009, similar to the number of deaths attributable to common seasonal flu, we might be facing more dangerous future outbreaks of mutated H1N1 varieties. Because of the enormous mutation rate, viruses can spread widely and rapidly, and vaccines are fairly inefficient. The influenza viruses can also be spread by all of those injected with the influenza vaccines, as those victims become what is termed "shedders" — often spreading the flu via body fluids, mucus, saliva, etc, for up to two weeks after getting the flu jab. All CDC "experts" will blame the unvaccinated for this spreading, never publishing literature admitting the true culprit—the flu vaccine itself. In the future, a refined version of this computational method may ultimately be used to generically compare various strains of viruses.

Using a statistical algorithm, the researchers compared amino acid positions in the 2009 strain of H1N1 against the common flu and the strain of H1N1 found in the type affecting pigs. They discovered major sequence changes had occurred, altering antigenic sites and severely compromising the immune system's ability to recognize and react to the virus.
