INSTRUCTIONS: This sheet shows taxable values by school district for some school areas within the county. Both overall taxable values and non-homestead taxable values are shown, with totals, for each school district listed. The schools listed are schools located in an intermediate school district (ISD) other than the Jackson ISD (i.e., out-county schools). Other equalization departments calculate the millage reduction fractions for these school districts. This sheet should be proofed each year after entering the L-4025s in the Data Input sheet. **No changes should be made to this sheet unless an error is discovered in the proofing process, etc.** The information contained in this sheet is pulled from the Data Input sheet. Information from this sheet is also used elsewhere in this spreadsheet. The values contained in this sheet do not include values for the listed school districts for areas of these districts located outside the county (i.e., the value for each school district is not the total taxable value for the school district). The school districts listed here are intercounty districts; information is needed by other Counties to calculate millage reduction fractions for these intercounty school districts. The Equalization Department must send a copy of the L-4028 to each County included in the listing below each year after the L-4028 has been completed. No Ren Zones are located in these districts at this time

2021 Millage Reduction Fraction Computation

This form is issued under authority of Sections 211.34d and 211.150, M.C.L. Filing of this form is mandatory. Failure to file is punishable under Section 211.119, M.C.L.

INSTRUCTIONS: This form is to be completed by the county equalization director for all taxing jurisdictions which levy a property tax in his/her county. This form is to be filed with each unit of local government and with the State Tax Commission. Also provide a copy of this form to the equalization director of each county which shares an intercounty taxing jurisdiction. On this initial computation form, the 2021 millage reduction fraction (MRF) can be calculated only for taxing jurisdictions located exclusively within a single county. This will include the county unit as well as all townships and nearly every city and village. The MRF for a school district which is not fractional with any other county can also be calculated and listed on this form. For any taxing jurisdiction which extends into one or more other counties, leave the MRF column blank and enter the notation "IC" for intercounty.

On this initial computation form, the 2021 millage reduction fraction (MRF) can be calculated only for taxing jurisdictions located exclusively within a single county. This will include the county unit as well as all townships and nearly every city and village. The MRF for a school district which is not fractional with any other county can also be calculated and listed on this form. For any taxing jurisdiction which extends into one or more other counties, leave the MRF column blank and enter the notation "IC" for intercounty.

INSTRUCTIONS: This sheet summarizes, with totals, by school, the values for in-county schools provided by the equalization departments of other Counties. Both overall and non-homestead taxable values are shown for each school district listed. After entering the L-4028 information obtained from other Counties into the Data Input sheet, this sheet should be proofed. **No changes should be made to this sheet each year unless an error is discovered in the proofing process, etc.** The information in this sheet is pulled from the Data Input sheet and is used in the L-4028 IC. The school district values shown in this sheet are for areas outside Jackson county. They do not include values for the listed school districts for areas of these school districts inside Jackson county.

INSTRUCTIONS: This sheet shows taxable values **by school district** for all school areas **within the county** & for school districts extending **outside** of the county. Only those schools that are in the Jackson ISD are included. Total taxable values and total non-homestead taxable values are both shown for each school district located in the county. Both in-county and inter-county schools are listed. Also shown are values for Jackson intermediate school district, which are then used on the L-4028. This sheet should be proofed each year after entering the L-4025s in the Data Input sheet and proofing the two preceding sheets.

No changes should be made to this sheet unless an error is discovered in the proofing process, etc.

The information contained in this sheet is pulled from the Data Input sheet, the Total In-County Schools sheet, and the Inter-County Schools sheet. Information from this sheet is also used elsewhere in this spreadsheet. The values contained in this sheet include values for school districts within the county & those districts which extend outside the county (i.e., the value for each school district will be the total taxable value for the school district). **Outcounty information is included in these totals. The bold schools indicate values from other counties have been added to the total.**

2021 Complete Millage Reduction Fraction Computation

This form is issued under authority of Sections 211.34d and 211.150, M.C.L. Filing of this form is mandatory. Failure to file is punishable under Section 211.119, M.C.L.

INSTRUCTIONS: The valuations on this form are for a single county. When this valuation information has been obtained from the equalization directors of all the counties which are included within the boundary of the intercounty fractional taxing jurisdictions listed, the 2021 millage reduction fractions can be calculated for those intercounty jurisdictions. The valuation information required by 211.34d, MCL, is the same information needed for P.A. 5 of 1982, Section 211.24e, MCL "Truth in Taxation". A different formula is used for Section 24e than is used for Section 34d, but the 2020 Taxable Value, 2021 Taxable Value, Taxable Value of Losses, and Taxable Value of Additions are the same quantities used in both formulas.

This form is to be filed with the State Tax Commission and with each unit of local government which has taxable property located in more than one county.
