To: Mason County

From: Kevin Greiner

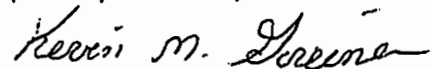

Date: May 31, 2024

RE: Termination of Services

To Whom It May Concern:

Please let this letter show as my 30 day notice of the termination of my contract with Mason County for Electrical Inspection services. The 30 days shall start from the date of this letter.

Respectfully Submitted,

A handwritten signature in cursive script that reads "Kevin M. Greiner". The signature is written in black ink and is positioned below the typed name "Kevin Greiner".

Kevin Greiner

NAME: _____

1. Why are you interested in providing electrical inspection services to Mason County?

2. As an inspector, you would be inspecting a variety of electrical systems in industrial, medical, retail, office, and residential settings. Briefly summarize your background and qualifications that would familiarize you with a variety of electrical systems.

3. How well do you work with people? Do you prefer working alone or in teams?

4. There will be frequent times when you have to prioritize your activities and permits. How will you prioritize them?

5. An inspector would have to be available at least three days a week year round. During the busiest times of year, four or more days may be needed. What type of schedule would be ideal for you? Are you available year round?

6. Would you make yourself available for the occasional weekend emergency? How would you deal with receiving cell phone calls after-hours or on a day when you were not working? (An example of a weekend emergency would be when a contractor needs an emergency inspection where an "Act of God" has taken out someone's power--- such as a lightening strike, ice knocking out a service etc.).

7. How would you describe your ability to deal with conflict?

8. What kind of experience do you have with Code Enforcement or working with Electrical Codes? Describe an enforcement challenge and how you dealt with it.

9. When would you be available to start?

- 10 . Do you have any questions for us?
